REMARKS.

Sec. 3 of Art. III., Chap. 83, of Compiled Statutes, directs the Auditor to digest, prepare, and report to the Governor of the State: *First.* "A full and detailed statement of the condi-"tion of the treasury, and the amount of the expenditures for "the last fiscal year. *Second.* A full and detailed statement "of the public debt, showing fully all liabilities and resources "of the State. *Third.* Estimates of the revenue and expendi-"tures for the next succeeding year. *Fourth.* Such plans as he "may deem expedient for the support of public credit, for lessen-"ing the public expenses, for using the public money to the best "advantage. *Fifth.* A tabular statement showing separately the "whole amount of each appropriation of money made by law, "the amount paid under the same, and the balance unexpended. "*Sixth.* A tabular statement showing separately the amount of "money received into the State Treasury, from all sources, in the "preceding fiscal year, the amount received from each county, "and for what years paid; the amount of penalties and interest "reported collected on delinquent taxes, and the balance due "from each county on account of taxes for each year for which "such balance may be due. *Seventh.* A tabular statement show-"ing the whole number of acres of land and value; total value "of town lots, and the whole number and value of each item of "taxable property returned by the several assessors or county "clerks to the State Board of Equalization."

In compliance with above instructions, your Excellency will find in statements preceding everything relating to the business of this department which has been done from date of last report up to and including November 30, 1884. You will find in their regular order and in their proper places, statements treating of the subjects set forth in the law. Some are not detailed by items, as in my opinion that is superfluous, and not contemplated by

the law, and would undoubtedly make a volume of 600 to 1,000 pages. In appropriation statement I have given the amount appropriated, and the amount expended in bulk; items can be found and vouchers exhibited, which are on file in this office. Statement No. I. is the balance sheet, as shown by the ledger. No. II. is the same detailed. An examination of the latter will show the amount of state taxes received on account of various funds, is $1,367,679.39, and in explanation of this item as to how and when received, statements Nos. VIII. and IX. will explain. All payments against said receipts have been made on warrants drawn by this department, which upon investigation will show that vouchers have been acted upon by the proper board or head of department, examined and adjusted by the Auditor, and approved by the Secretary of State, as by law provided. The sinking fund is used by the Treasurer, this office not acting in the matter, in the payment of interest on state bonds, and $45,000 of this fund was ordered by the last legislature to be transferred to the general fund for the payment of the per diem and mileage of its officers, members, and employes, because the general fund had only a small balance on hand. The general fund will show, beside tax collections and transfers, the fees collected and earned by this department $21,739, which speaks for itself, and shows that precious little idleness has been indulged in.

PERMANENT SCHOOL FUND.

This fund is in a healthy condition. The receipts from various sources, including balance in the treasury Nov. 30, 1882, was $630,779.88, which amount has been invested by the board of educational lands and funds in registered county bonds, to the extent of $584,826.24, leaving a balance unexpended of $45,953.64, which I believe is now about to be invested. The total resources of this fund, including unexpended balance, amount to $1,175,720.99. For explanation, see Statement No. III. The interest derived from these investments is placed to the credit of the tem-

porary school fund, and is apportioned with other moneys semi-annually to the various counties, and by them apportioned to the school districts. There are some bonds and mortgages held by this fund, being loans made in an early day to sundry persons, amounting to $25,900, which in my opinion should be collected or placed in such shape that the fund will derive an income. By reference to statement it will be seen that not a dollar has been received for either principal or interest.

TEMPORARY SCHOOL FUND.

This fund has never received such an income as it has during the past two years, *i. e.* $1,021,228.65, including balance on hand Nov. 30, 1882. $856,391.89 of this amount has been apportioned or paid by Auditor's warrant to the several counties, for the support of education—a good healthy sum to teach the young idea how to shoot, taken in connection with other sources from which county school fund is made up.

MISCELLANEOUS FUNDS.

State Bonds (relief) Fund has a balance in the treasury of $10,751.15, which should, in my opinion, be transferred to the sinking fund, as that fund in March 1, 1885, has to pay bonds due—amount $50,000, for which said fund was created.

University Fund. This fund speaks for itself, it supports the University, and has a handsome balance in the treasury, sufficient for improvements and enlargement of building if necessary.

State Convict Fund. The balance of this fund, $3.36, appears to be perpetual. It has appeared in every biennial report issued during the past eight years, and will always appear if not taken care of and buried by transfer to some other fund, which course of proceeding I think advisable.

Hospital for Insane Fund. This fund is in a healthy condition, having $33,976.47 in the treasury, and a large amount due it from

counties for the care and custody of their insane. Statement No XVI. shows a delinquency of $167,479.88 due from counties, which if paid would make the fund rich. An effort will be made soon to collect from those counties who decline to make payments or resist making the necessary provision to pay their honest debts. Some counties are very prompt in their payments; some ignore entirely the quarterly accounts rendered by this office. I would recommend that an act be passed which will obviate this difficulty so that the hospital can receive the proper benefit by improvements or otherwise, as the legislature shall decide at the proper time.

Normal Interest Fund. This fund has a balance of $18,043.11 to its credit, with no indebtedness, which can be used as is most advisable to the best interest of the school.

The other funds speak for themselves, and it is unnecessary to make extended remarks about them.

APPROPRIATIONS.

A list or statement is made up from estimates filed by the chiefs of departments showing the appropriations which in their judgment are needed during the two years ending March 31, 1887. Some of the amounts will appear extravagant as to salaries, etc., but in connection therewith must be considered experience, increase of duties, the value of skilled labor, etc. These matters will all be explained to the proper legislative committee. The amount asked for in total is $1,126,403.60. I have no further remarks to make on this subject, as it is a matter which relates to every state officer and department. The officers are the ones to advocate their claims and wishes, which I presume has been or will be done in reports to your Excellency, and by an appearance before legislative committee.

This office has expended in the unexpended balances of the appropriations made by the sixteenth session of the legislature, as reported two years ago, $157,811.55, leaving a balance

of $28,733.00, which amount lapses, or rather will never have claims appear against it.

The appropriations of the seventeenth session, and expenditures against the same, are as heretofore reported. No change.

The appropriations of the eighteenth session amount to $1,163,840.32. The amount expended against the same, $944,308.35. Balance unexpended, $219,531.97, which is to run until March 31, 1885. Some of the balances will be inadequate to pay claims against them, and appropriations have been asked in estimates to cover the expected deficiencies.

MISCELLANEOUS CLAIMS.

Statement No. V. will show the claims filed in this office which have not been provided for by appropriation. The claims for court fees are just, and should be paid, as they are State cases.

The publication of the Governor's proclamation relating to the proposed constitutional amendments has been done on order of the Governor and Secretary of State, and a part of the claims have been filed. The lawful printer's fee is one dollar per square for first insertion, and fifty cents per square for each insertion thereafter. These claims are just, the work performed in good faith, and should be paid without question. I speak of the claims, not of the amounts.

Claims are filed by C. J. Nobes, Warden of the Penitentiary, for conveying convicts to the counties on mandate of Supreme Court; also for board of himself and deputy and families, on the same principle that like officers—that is, heads of institutions—are boarded by the State, he should receive a like benefit. His report to the Governor will probably advocate his claims and advance reasons therefor in presenting them. The Legislature will receive these bills, and do as in its judgment is best as to fixing the amount and ordering its payment by an appropriation. There are numerous other claims left over by the last Legislature, acted on but crowded out by want of time to present them. These

are not presented in my report, but will be handed to the proper committee. This statement includes no claims filed prior to adjournment of the last Legislature.

MISCELLANEOUS.

The Board, consisting of the Governor, Auditor of Public Accounts, and State Treasurer, appointed by law to secure the loans made in an early day by the permanent school fund, has nothing to report, as there has been no meeting since October, 1881, as everything was done then that could be, and also all the evidence of said loans are in the hands of the Attorney General for collection. The State Board of Equalization has followed the law strictly, as it was understood, both as regards the assessment of railroads and real and personal property as reported by counties. The action of the Board so far as results are concerned, will be found in Statements Nos. XX., XXI., XXII., XXIII., XXIV., XXV., XXVI., XXVII., XXVIII., and XXIX. Detailed matter relating to the same is of record in this office and subject to inspection.

REGISTRATION OF BONDS.

This business is enormous. The fees paid into the treasury by this office amount to $1202. There is work enough in this branch of the business to keep a good clerk constantly engaged. School district bonds registered, $352,227. Precinct bonds registered, $37,800. County bonds registered, $852,500. Statements Nos. XXX., XXXI., and XXXII. will detail the bonds registered.

LEGISLATIVE.

The attention of your Excellency is respectfully directed to sections 11 and 12, page 330, Compiled Statutes. Section 11 states

who shall be the officers and employes of the Senate. Section 12 states who shall be the officers and employes of the House of Representatives. This law no doubt was sufficient for the government of the Legislature when passed in 1867, but is entirely inadequate to the present time. The Supreme Court treats of this matter in the case of State, *ex rel.* Squires, v. Wallichs (vol. 14, p. 439, Supreme Court Reports), and under the decision therein contained the Auditor is not authorized to pay any vouchers of the Legislature for clerical labor except that which is specified in the law. You can readily see the importance of having this law changed so as to meet the requirements of the present day.

At the close of the last Legislature a committee clerk presented two vouchers purporting to be services rendered to two different committees which embraced the same time, both day and evening, viz., January 2, 1883, to February 27, 1883, 61 days, at $3, $183, and mileage, $10. One of these claims I very promptly declined to adjust, and the party aggrieved carried the matter to the Supreme Court for adjudication. The said Court sustained the Auditor. The other claim was allowed and paid.

The appropriations asked for the payment of officers, members, and employes, $40,000, and incidental expenses, $35,000, is estimated on the amount expended by the 18th session, and will be needed.

INSURANCE.

The law which went into effect June 12th, 1866, known as the "Life Insurance Law," portions of it since repealed (concerning Fire Insurance), is somewhat cloudy and needs clearing. I mentioned this matter in my last report. I would recommend that the law as it now stands be repealed, and another one enacted which will define what life insurance companies are, and which will embody co-operative associations, if in the judgment of the Legislature they are to be considered insurance companies. As

the law now stands, co-operative associations are not provided for, and a number of them are and have been doing a wholesale business in every part of the State, which is an injustice to the "old line" companies, which comply with the law, such as it is, and pay a large revenue to the State. Surely, co-operative associations are insurance companies, as they take risks and receive premiums in the shape of assessments, and should be treated the same as other companies; but they avoid the issue, claiming to be benevolent associations and not contemplated in the law. In my opinion, this is all wrong, and the State pecuniarily is a loser and the people in many instances gulled by "wildcats" and irresponsible frauds. This office is in daily receipt of communications from sundry persons, inquiring as to the standing, responsibility, etc., of such and such an association, and the reply invariably is, "Nothing is known about it, having received no statement from the company, and no certificate of authority has been issued to transact business." A law is greatly needed for the government of this class of insurance. While speaking of co-operative insurance, I desire to make a report of the associations admitted into the State to do business, having complied with the law and received authority to do their appropriate business.

MUTUAL RESERVE FUND LIFE ASSOCIATION OF NEW YORK.

This is a co-operative company, but has $100,000 deposited with the Insurance Commissioner of New York, which is held by said Commissioner for the protection of its policy-holders, not only in New York but elsewhere. Nebraska can reach it as well as other States. It also has a reserve fund, and a policy specifies a particular amount which is paid at death and not depending specifically upon co-operative collections to pay the beneficiary. It has complied with the law in all respects, and consequently received the Auditor's certificate of authority to do business. This is the only foreign co-operative association now doing business legally in the State, except the Centennial Mutual

Life Association of Burlington, Iowa, which has been noticed in a former report.

WESTERN MUTUAL BENEVOLENT ASSOCIATION OF BEATRICE, NEB.

This Company was first doing business as a mutual company. On September 5th, 1884, the charter was altered, making it a stock company.

Capital stock subscribed, $100,000; cash paid in on stock $600; and the balance, $99,400, secured by mortgages or pledges of real estate.

OFFICERS.

WILLIAM LAMB—President.
WM. H. LAMB—Vice President.
C. M. BROWN—Treasurer.
O. C. SABIN—Secretary and General Manager.

The company has nine directors, five others than the officers. The General office is at Beatrice, Gage county, Neb. This company received the Auditor's certificate September 6, 1884. The above statement is made in compliance with 37, p. 321, Compiled Statutes.

At the closing of my last report there were 74 fire insurance companies authorized to do business. There are now 82 companies, being an increase of eight companies. The names of all companies authorized will be found on pages preceding. Only two fire companies have been organized in the State, viz.:

The Nebraska and Iowa Insurance Company of Omaha, organized and incorporated March 15, 1883.

OFFICERS.

SAMUEL R. JOHNSON—President.
W. H. B. STOUT—Vice President.
J. T. HART—Secretary.
Principal office, Omaha, Neb.
Capital stock, $100,000; capital paid up in cash, $50,000.

In May, 1884, I caused this Company's affairs to be examined by a Chicago expert, Mr. W. E. Lewis, and Mr. A. T. Gruetter, of this city, with a result perfectly satisfactory to this department. Below is a summary of the results of the examination:

ASSETS.

Stockholders' notes for unpaid capital		$ 50,000 00
Mortgage		3,750 00
Cash in bank and in office		37,544 86
Premium notes, not over 90 days past due		126,433 07
Horses, furniture, supplies, etc		12,200 00
Due from various persons, etc		6,845 65
Premiums in excess of collections		1,199 81
Total assets		$237,973 39

LIABILITIES.

Capital stock	$100,000 00	
Advanced by stockholders	50,000 00	
Due agents and others	2,544 52	
Re-insurance on basis of 4 per cent of premiums	68,377 50	
Total liabilities	220,922 02	
Surplus	17,051 37	
		$237,973 39

The preceding is the showing of the Company on April 28, 1884, in the morning. There is not included in above assets $9761.99 of premium notes past due over 90 days. The horses, furniture, etc., were invoiced at cost price, *i. e.*, $18,315.35, but only $12,200.00 was admitted in the assets. Amounts due from various persons, etc., amount to $7,380.72; only $5,000 was admitted in assets. The expenses incurred by this Company from its organization to April 28, 1884, were $69,498.74.

HOME FIRE INSURANCE COMPANY OF OMAHA, NEB.

Organized Sept. 13, 1884. Authorized to transact business November 11, 1884.

OFFICERS.

S. H. H. CLARK—President.
CHAS. J. BARBER—Secretary.
CHAS. W. HAMILTON—Treasurer.

Capital, $100,000. Paid up, $50,000. Balance, $50,000, secured by notes with sureties. Omaha is its place of business.

This branch of the Auditor's business is steadily increasing, and is of sufficient magnitude to be weaned from the Auditor and an insurance department formed. The many and varied duties of the Auditor will not permit the attention to the insurance business it should undoubtedly receive. No work is slighted, but it can be studied and made of great consequence—in fact a business in itself, and consequently a power. The fees alone are sufficient to run such a department as well as being a source of revenue to the State. The present law makes it obligatory upon a company to have an attorney with power to accept service, resident at a county seat. This business can be simplified by each company having an attorney resident at the capital instead. This alone would save a heavy correspondence to and from the companies.

The fees received from insurance companies since my last report, Nov. 30, 1882, to Nov. 30, 1884, amount to $20,537—a much larger sum than ever heretofore reported.

This Department received notice from various sources that the Northwestern Mutual Live Stock Association, formerly of Anamosa, Iowa, now of Bismarck, Dakota, was doing business in the State without authority. I caused proceedings to be instituted in Dakota county. The district court decided against the State. Also an endeavor was made to bring the matter before the district court, through the grand jury, in Clay county. The

grand jury decided that there was no cause of action—though the agent was perambulating around in that county doing business in defiance of the law. The matter was brought by the Attorney-General before the supreme court, and said court decided that said association was a foreign insurance company and as such had no authority to do business without a certificate from the Auditor. Thus the question is settled as to companies or associations doing business in this State independent of authority from this Department. And I earnestly hope the matter of co-operative associations will be taken up and settled.

CONCLUSION.

My term of office will in a few weeks expire. During my administration I have endeavored to do my duty as I understood it. I have resisted claims and the registration of bonds conscientiously and as I interpreted the law. The aggrieved parties did not look at the matters as I did and appealed to the supreme court; with one exception said court has sustained me, which was gratifying to my judgment and action. In concluding my remarks I desire to speak of the faithful services of my deputy and book-keeper, who have worked with me as a unit, and I cheerfully recommend them to my successor as competent, worthy and faithful. My intercourse with the State officers has been of a pleasant nature, and without serious conflict, and in parting with them officially I do so with regret, hoping that they will live long and be prosperous in all of their undertakings, whether personally or for the benefit of the State.

I have the honor to be

Your most obedient servant,

JOHN WALLICHS,

Auditor Public Accounts.
